

RULE 37 CLARIFICATION

1. All out-of-state competition regardless of the number of schools (e.g. even two schools) involved must meet the requirements of MIAA Rule 37.4
2. A single contest against a member school of an NFHS recognized state association does not require MIAA approval, as long as the contest is not part of a larger event involving other schools. Such a contest does count toward the maximum number of competitions permitted within the week and the season, and must be part of the team's tournament qualifying record.
